For the second time, the Fonds Kirchberg gives access to its head office and presents the recently published work of Yvon Lambert and Romain Girtgen. The two professional photographers had been commissioned by the Fonds Kirchberg for its regular photographic assignment documenting the development of the constantly evolving Plateau Kirchberg.

The permanent contemporary art collection – paintings, sculptures, works on paper, photographs from more than fifty artists – characterizes the impressive building of Deutsche Bank Luxembourg which was built by German architect Gottfried Böhm. On the occasion of Private Art Kirchberg 2018 DB Lux. shows the exhibition "Carnival of Animals" with more than 100 works of art by 31 international artists of the Deutsche Bank Collection.

The EIB art collection comprises some 600 works of art, encompassing paintings, photographs, works on paper, sculptures, installations and site-specific commissions. The collection focuses on contemporary works by leading or emerging European artists. For this PAK edition, the EIB will present a thematic exhibition celebrating six editions of the Artists Development Programme (ADP) - the EIB residency for budding European artists - displaying the works produced in the framework of the programme.

Supporting young artists in the community we live is part of the EY purpose of Building a Better Working World. Our new premises in Kirchberg provide us with the perfect environment to share our growing art collection with our EY professionals, our clients and, thanks to Private Art Kirchberg, also with anyone interested in art. We are pleased to present our collection of paintings by Luxembourgish artist Jacques Schneider.

The Fidelity International corporate art collection currently comprises over 3 000 contemporary artworks by more than 500 artists, these are displayed in the company offices around the world for the benefit of staff, clients and visitors. Following the 2016 presentation of "More & More (the invisible oceans)" by Marina Zurkow, in 2018 Fidelity International will feature a temporary installation of two generative digital artworks by teamLab. The art collective teamLab (formed in 2001) is an interdisciplinary group of ultratechnologists whose collaborative practice seeks to navigate the confluence of art, science, technology, design and the natural world. teamLab is made up of various specialists such as artists, programmers, engineers, CG animators, mathematicians and architects.

In 2004, the Pictet Bank decided to associate its long history with an art collection of the first order. Cherishing its Swiss roots, the Bank opted for a fine selection that covers Swiss artists who are representative of a range of movements and trends in the art of the 19th, 20th and 21st centuries. Today the Collection counts over 700 works of art.

Contemporary art and its values play a significant role in the world we live in: it is global in nature, it transcends all barriers and reveals new perspectives. At UBS, we believe we should share those values and ignite our passion of art with others. This is why we make our art collection accessible to the public.

The Private Art Kirchberg initiative was born out a common desire to share these hidden treasures with the public. Once every other year, participating companies and institutions open their doors to art and architecture lovers for one special day, transforming their buildings into a public art gallery that stretches across the entire Kirchberg plateau.

Die Initiative Private Art Kirchberg entstand aus dem gemeinsamen Wunsch, diese verborgenen Schätze der Öffentlichkeit zugänglich zu machen. Alle zwei Jahre öffnen die teilnehmenden Unternehmen und Institute an einem besonderen Tag ihre Türen für Liebhaber von Kunst und Architektur. Sie verwandeln ihre Räumlichkeiten in eine öffentliche Kunstgalerie, die sich über den gesamten Kirchberg erstreckt.
